## ORAL BROAD SPECTRUM ANTHELMINTIC FOR DOGS

### HIGHLY EFFECTIVE AGAINST:

- |            |                               |
|------------|-------------------------------|
| ASCARIDS:  | • Toxocara canis              |
| HOOKWORM:  | • Ancylostoma caninum         |
| TAPEWORMS: | • Dipylidium caninum          |
|            | • Taenia hydatigena           |
|            | • Echinococcus granulosus     |
|            | • Echinococcus multilocularis |

### COMPOSITION: Each tablet contains

Pyrantel Pamoate	300mg
Praziquantel	100mg
Febantel	300mg

0.5 - 5kg	¼ Tablet
6 - 10kg	½ Tablet
10 - 15kg	¾ Tablet
16 - 20kg	1 Tablet
21 - 30kg	1 ½ Tablet
31 - 40kg	2 Tablets
41 - 50kg	2 ½ Tablets
51 - 60kg	3 Tablets
60 - 80kg	4 Tablets

### DIRECTIONS FOR USE:

- Worm-Away can be administered directly, or mixed with meat, or crushed and mixed with feed.
- Feeding or fasting before treatment is not necessary.
- Puppies should be dewormed every 2 weeks from the age of 2 to 12 weeks and regularly every 3 months thereafter to control worm infestations.
- Adult dogs should be dewormed at least every 6 months.
- Worm-away may be given safely to dogs including pregnant bitches.
- Pregnant bitches should always be dewormed 10 days before whelping

**1 TABLET / 20KG**

## Pet Sun Guard SPF 30

- **SPF 30** with UVA and UVB protection
- A sunscreen that is **pH balanced** specifically for pets
- A chemical-free barrier cream that stays on longer
- Ideal for cats, dogs and horses.
- Pets with white fur and sensitive pink skin, as well as animals with thin or no hair are at a greater risk of **sunburn and skin cancer**.

## Probi-cream

THE FUTURE OF  
HYGIENE WITH THE  
POWER OF  
PROBIOTICS  
100ml

## Probi-spray

- The use of **topical, probiotic, preparations** is a rapidly growing trend in human and veterinary healthcare.
- Coat and wound treatment challenges such as odours, topical infections and skin allergies are caused by pathogens. Traditional antibiotics and antiseptics increases drug resistance.
- Probiotics developed in Belgium using Bacillus bacteria (**natural** and **sustainable**), have shown **incredible results**.

### VETS OWN PROBI-CREAM

- Carries an international patent containing Prebiotics and Probiotics.
- Prebiotics accelerates growth of the skin's natural bacteria, thereby rejuvenating the skin.
- Probiotics “outcompetes” any pathogen contamination, and accelerates healing, improves scarring and maintains a layer of healthy microflora around the problem area.

### VETS OWN PROBI-SPRAY

- Ideal way to improve hygiene and treat wounds or lacerations to the skin.
- Contains purest form of Probiotics and is completely harmless to the animal.
- Can be gently misted onto the animal from a distance.
- It is important to **mist** without creating too much moisture. Most effective when misted finely.

### INDICATIONS:

- Wounds & lacerations – apply to cuts.
- Any skin infection or irritation of the skin or ears.
- Odor control.
- Skin allergens.
- Chronic skin conditions.
- Apply / Mist twice daily

**By using antibiotics, antiseptics, antimicrobials and disinfectants you kill off both the good and the bad bacteria leaving behind the resistant bacteria (superbugs) to flourish.**

The use of topical probiotics drastically lowers the pathogen count.

VETLOMAR™ ALLERGY ITCH RELIEF PRODUCTS ARE TOPICAL APPLICATIONS FOR THE SYMPTOMS ASSOCIATED WITH **ALLERGIC SKIN REACTIONS**

## ITCHY SKIN? DERMATITIS? HOT SPOTS?

- Vetlomar™ Allergy Itch Relief range is an **irritant-free** formulation for companion animals.
- It contains the patented CEM-K, a 100% natural active ingredient, sustainably sourced from the **giant sea kelp** species, *Ecklonia maxima*, found only off the nutrient rich waters of the southern tip of Africa.
- CEM-K is rich in fucoidans and phlorotannins which have proven **anti-inflammatory** properties.
- Clinical evidence proves that this ingredient will **soothe itchy and red skin**.
- It **reduces continuous itching and scratching** due to flea bites and other irritants.

Offers relief from itchy, irritated and inflamed skin

Relieves swelling

- UNIQUE SOOTHING PROPERTIES
- CALMS SORE IRRITATED SKIN

Scientifically researched

Tested on Humans

For Animal Use Only

## 100% NATURAL ACTIVE INGREDIENT

Fucoidans are long chain polysaccharides characterised by a complex molecular structure and varying degrees of sulfation and acetylation. In topical formulations fucoidan has been shown to impart a range of anti-inflammatory properties. In a clinical setting, it has been shown to significantly inhibit erythema and water loss from skin. It has also been demonstrated that fucoidan limits the inflammation caused by allergy and topically applied fucoidan has been shown to be as effective as cortisone in combating allergic dermatitis.<sup>2</sup>

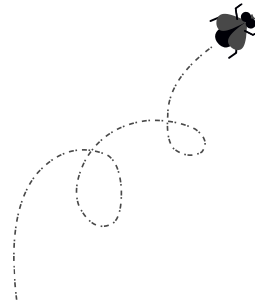

- The top selling insect repellent for the past 50 years in South Africa.
- 24 hour insect repellent efficacy in case studies.
- It is effective against house **flies**, **stable flies** and **mosquitoes**.

**BUZZ OFF**  
**SPRAY**

Available in 250ml, 750ml and 5L

Reg no: G2953 Act no. 36 of 1947

**Contains:** Cypermethrin 0.3% m/v  
Citronella oil 0.6% m/v

**Dog Rocks** are paramagnetic igneous rocks  
(100% NATURAL Rock)

- When immersed in water, the paramagnetism creates a magnetic field within the water causing a change in the ion exchange.
- This **diminishes the nitrates** that are found in the water. Less nitrates are being absorbed into the system and coming out of urine. **Nitrates are the chemicals that burn grass.**
- Only affects the water not the grass.

### How to use Dog Rocks:

- 1** Remove your Dog Rocks from the packet and rinse under water.
- 2** Place your Dog Rocks in your dog's water bowl then fill the bowl with 2 liters of water. Must be the main source of drinking water.
- 3** Leave the rocks in the water for 8 hours. For best results top the water at night before bed.
- 4** Replace your Dog Rocks after 2 months of use.
